Notice Regarding Price Revisions

KATO WORKS CO., LTD. hereby announces that it will revise the prices of all products sold in Japan.

1. Reasons for the price revisions

In response to the continued increase in raw material prices, logistics expenses, energy costs, and other costs, the Company has implemented company-wide initiatives to reduce manufacturing, sales, and administrative costs. However, it has become increasingly difficult to absorb these cost increases through the Company's own efforts alone. Accordingly, in order to ensure the stable supply of products and maintain product quality, the Company has decided to revise the prices of all products sold in Japan.

2. Products subject to the price revisions

All products sold in Japan

3. Price revision rate

Approximately 3% to 20%, depending on the product

4. Effective date

To be implemented in phases from August 2026

5. Outlook

The impact of these price revisions on the full-year consolidated financial forecasts for the fiscal year ending March 31, 2027 is currently under review. The Company will promptly make an announcement if any matter requiring disclosure arises once a reasonable estimate can be made.
